

ASSIGNMENT - 1

Name : Arpit Sharma
Reg. No. : AP26110070004
Section : A

1. To implement a program for the addition of two numbers using output function.

Program :

```
#include <stdio.h>

int main() {

int a = 6;
int b = 15;
int sum;

printf("%d\n",a);
printf("%d\n",b);

sum = a + b;
printf("%d" , sum);

return 0;

}
```

Output :

C First01.c ×

C First01.c > ...

```
1  #include <stdio.h>
2
3  int main() {
4
5      int a = 6;
6      int b = 15;
7      int sum;
8
9      printf("%d\n",a);
10     printf("%d\n",b);
11
12     sum = a + b;
13     printf("%d\n", sum);
14
15     return 0;
16
17 }
18
```

Problems Output Debug Console Terminal Ports

```
● helloarpit27@Arpits-MacBook CProgramming % gcc First01.c -o First01
● helloarpit27@Arpits-MacBook CProgramming % ./First01
6
15
21
❖ helloarpit27@Arpits-MacBook CProgramming %
```

ASSIGNMENT - 2

2. To implement a program for the addition of two number by giving the values to the variables at run time using input/output functions.

Program :

```
#include <stdio.h>

int main() {

    int a;
    int b;
    int sum;

    printf("Enter first numbers : ");
    scanf("%d", &a);

    printf("Enter second number : ");
    scanf("%d", &b);

    sum = a + b;
    printf("Value of sum : %d\n", sum);

    return 0;

}
```

Output :

The screenshot shows a code editor window titled "CProgramming" with a file named "First01.c". The code is a C program that calculates the sum of two numbers. The terminal output shows the program being compiled and executed, with the user entering the numbers 20 and 17, and the program outputting the sum 37.

```
C First01.c ×  
C First01.c > main()  
1  #include <stdio.h>  
2  
3  int main() {  
4  
5  int a;  
6  int b;  
7  int sum;  
8  
9  printf("Enter first numbers : ");  
10 scanf("%d", &a);  
11  
12 printf("Enter second number : ");  
13 scanf("%d", &b);  
14  
15  
16 sum = a + b;  
17 printf("Value of sum : %d\n", sum);  
18  
19 return 0;  
20  
21 }
```

Problems Output Debug Console Terminal Ports

- helloarpit27@Arpits-MacBook CProgramming % gcc First01.c -o First01
- helloarpit27@Arpits-MacBook CProgramming % ./First01
Enter first numbers : 20
Enter second number : 17
Value of sum : 37

helloarpit27@Arpits-MacBook CProgramming %
